Paul McQueary

Re: Don't Meth with Us Program

Dear Mr. McQueary:

As superintendent of the Farmington Municipal Schools my first and foremost concern is the education we provide to the students of San Juan County. We are most appreciative of the community assistance in providing information on health and social concerns we all have as our children grow up into adults.

The Don't Meth with Us Program has provided many students over the years with the information they need to make good choices in how they live their lives. Even if only one child remembers the horrible health effects Meth can have on them, the program has been successful. I know you have reached many more of our students and starting at a younger age has been an excellent course to pursue in our efforts to inform and make a difference with our students.

On behalf of the District I thank you for the many hours of presentations your members have provided and your tireless efforts to bring this valuable message to kids. Commitment to educating our students is a valuable asset to the schools and to the community.

In Educational Efforts,

Janel M. Ryan
Superintendent
